

Danielle Neuman

Office Manager

Danielle Neuman has been with Compliance Alliance for more than 24 years. As our Office Manager, Danielle leads our team of Operations Support Specialists, ensuring all customer service matters are handled as promptly and accurately as possible. She manages our IT department and the implementation of all new written programs and systems. In addition, she oversees the development of all client materials and ensures the accuracy of everything that leaves our office. What Danielle is probably known for, more than anything, however, is the smile you can hear when she answers the telephone. She is always willing to help our clients in any way possible; whether that is creating a custom form or poster to scheduling appointments or registering people for conferences and webinars. Danielle is, bar none, our Goodwill Ambassador!
